

BASIC PROFILE ON THE MINUS SIDE

© 2011 P. M. H. Atwater, L.H.D. – *Children of the Fifth World*

Impulsive and impatient, quick-click kids

Feel entitled, over confident

Ultimate consumers

Underlying anger, little tolerance for lies, manipulation

Prefer astral and synthetic worlds

Highly sensitive to drugs, snack/processed foods, metals

Highly sensitive to toxic/incoherent/electronic energy

Do not assimilate nutrition well

No concept of authority – need mentors not bosses

Appear wiser than they are, self-deception an issue

Sensitive to “trickster” energy, possession, attachments

Do not understand effort needed to process or refine

Expect things to come to them

Do not recognize boundaries, even that of “skin”

Clothes more important than language skills

Their greatest fear.....silence
